

Main Board Firmware Installation for VJ-1204 & VJ-1604

VJ-1204 Main Board is compatible with VJ-1604.
However, there is some note as follows.

Note:

If VJ-1204 main board need to VJ-1604 firmware installation for repair, or versus vise, dip switch #3 on main board should be as follows position.

Dip SW #3-1: On, Dip SW #3-2: Off

After install new firmware, Dip Switch #3-1 should be off position.
